Systems training is notorious for being boring, mundane, and hard to grasp. Generally speaking, you'll be given thousands of pages of manuals to study, in addition to some mediocre material to interact with. That is not a fun or effective way to learn. At Angle of Attack, we decided it doesn't have to be this way. 777 GroundWork was born.

Performance-based. 787 maintenance training focuses on better job performance rather than on system knowledge. Though system knowledge is necessary for effective performance, it is more important for the training program to have a solid foundation of learning objectives and base the training on measuring how effectively the students can accomplish the objectives.
