T660 was announced as the replacement for the T600. Retaining the cab and Aerocab sleeper of the T600, in a major shift, the T660 adopted diesel engines produced by PACCAR. For the first time since 1990, the aerodynamics of the hood and fenders were updated, as the T660 introduced composite headlamps faired into the fenders while adopting a grille similar

Hi I have a 2012 kenworth t660 and the left rear turn signal and brake light will not work. All the other turn signals and lights work and I have changed out the computer that controls all the lights with one from another truck and it didn't fix the issue. I have also found the pin for the wire that runs to the back and the continuity is good.
