Culture/Individual Identity focuses on three groups for whom the tension between a particular national culture and the global cultural supermarket is especially acute: Japanese artists, American religious seekers and Hong Kong intellectuals after the handover to China. These ethnographic case studies form the basis for a theory of culture which we can

Cultural identity is the identity of a group or culture or of an individual as far as one is influenced by one's belonging to a group or culture. Various modern cultural studies and social theories have investigated cultural identity. In recent decades, a new form of identification has emerged which breaks
