Honda Manual Transmission Fluid Leak

If you've found red fluid under your Honda Civic, you probably have a transmission leak. A transmission leak is a big deal. If you let too much transmission fluid leak, the transmission will begin to slip, which can quickly cause long term damage. Unlike oil, transmission fluid is flammable, and will flash if it hits the exhaust manifold.

Honda Civic: Transmission Fluid Leak Causes | Drivetrain ...

An oil leak on the transmission is a big problem. Not only does it cause unsightly spills, but it also affects lubrication inside the powertrain's moving components. Make sure your Honda Civic is free of transmission leaks with the options below. By Neftali Medina - May 8, 2015

Honda Civic: Why is My Transmission Leaking? | Honda-tech

Your CR-V should be running when you check your transmission fluid level, otherwise the fluid level on the dipstick will not be accurate. If your CR-V hesitates when shifting gears or seems sluggish shifting from one gear to the next (1st to 2nd gear, 2nd to 3rd gear, 3rd to 4th gear, etc.) check your transmission fluid level first.

Fix Transmission Fluid Leaks Honda CR-V (2007-2011) - 2009 ...

If, after adding transmission fluid, you notice that your fluid level is low again, follow the steps highlighted in the video above to fix the transmission fluid leaks in your Civic. In Honda's quest for more performance and better fuel economy, Honda has been coming out with innovative transmissions on a regular basis.

Fix Transmission Fluid Leaks Honda Civic (2001-2005 ...

Most manual transmission fluid is the same color as motor oil. However, sometimes manual transmissions use automatic transmission fluid. This can be confusing if you're trying to find a leak in your manual transmission. Once again, you can use dye to help you find the source.

Manual Transmission Fluid Leaks | EricTheCarGuy

Adding BlueDevil Transmission Sealer to your manual transmission through the fill plug can do just that! BlueDevil Transmission Sealer is a specially formulated liquid leak stop agent that will permanently stop your transmission leak by restoring the seals and gaskets in your transmission.

How to Fix a Manual Transmission Leak | BlueDevil Products

Leaking fluid is pulled downward by gravity. Carefully inspect the engine and transmission surfaces to locate/trace the highest point on the transmission or engine where you find oil.

Transmission leak? | ClubCivic.com - Honda Civic Forum

Gasket failure: This is the most common cause of manual transmission fluid leaks. The gasket creates a seal between your gearbox and your engine as well as your gearbox and the output shafts. The friction, pressure and heat generated in your transmission wear your gaskets and seals down over time, allowing fluid to leak.

Why Does a Manual Transmission Leak? - Bar's Leaks

One of the main causes of a transmission fluid leak is a gap in your transmission. This is hard to narrow down as it could be a space in a pan gasket, torque converter, fluid lines, the transmission pan, or the seals. It can be difficult to narrow down, so it is best to have a mechanic inspect your vehicle.

Is It Safe to Drive When a Car is Leaking Transmission Fluid?

If you have a shifting problem with your Honda manual, check the clutch hydraulics for leaks, particularly the clutch master. These have been known to leak, and when they do they can cause shifting problems, usually grinding into gears. In addition to checking the hydraulics, check the shift linkage for worn bushings.

Honda Manual Transmission Tips | EricTheCarGuy

This article applies to the Honda Accord (1990-2002). The transmission fluid is commonly ignored because many assume it will last forever. In reality, the fluid can break down with varying temperatures, become contaminated with water and dirt, or leak out slowly.
