The relationship between genetics, brain structure, and intelligence is an age-old polemic evident in such diverse disciplines as phenology, sociology, education, neuroscience, and ... (Thompson et al. 2001a), have each demonstrated regional differences in relationships to IQ.

Genetics of Brain Structure and Intelligence

Our genetics have done well in the show ring and bred on for other breeders. With that in mind, we have decided to offer semen for sale from our herd boars. All the boars in the stud are used on our own sows - they're not just boars used for semen sales.
