A spa controller runs the spa's pump, blower, and heater. Most spa controllers have the heater built into them, so the spa controller is also the spa heater. If your spa has heating problems, check your heater. The brain of an electronic spa controller is a circuit board. The circuit board is the most expensive component in a spa controller.

ABOUT US. Turbo Tubs was formed in 1988 after our founder purchased an outdoor spa for his own personal home use. After the sale, he experienced on-going spa quality problems, excessive electrical bills, and a total lack of credibility and support in problem solving from the local spa retailer that the spa was purchased from.
